

Don't Let This Educational Opportunity Pass You By

We have a place for you...at Truman College!

Southern Illinois University Carbondale at

Truman College: Chicago, IL

Why enroll in an SIU program?

- Career-oriented degree program; meets needs of individuals who want an automotive technology career
- Transfer credit from other accredited institutions, including community colleges, CLEP, DANTES, or proficiency testing accepted
- Provides course work and experience in areas of management and supervision in the automotive industry
- College graduates generally earn twice the annual income of a high school graduate
- Education is power—increases personal and professional mobility

Who should enroll in the Automotive Technology program?

- Anyone who has an Associate Degree or training and experience in the automotive industry
- Working adults who have automotive-related work experience and/or technical certification training from military schools, technical institutes, or industry training programs

What are the program requirements?

- The 36 hour major is offered in 3 semesters, 12 hours each, over 12 months
- No main campus attendance required
- Classes held on Saturday and Sunday
